

LakeCity Bright Fire Starters

LakeCity Works supports people living with mental illness to build on their strengths, take on responsibilities and access work experience, education and employment. As a social enterprise, we partner with people so that they can grow in an environment of love, learning and sustainability. By offering on-site experiential opportunities for our clients, we are empowering them to be themselves and thrive in a safe learning environment.

The Bright Fire Starters team transforms sawdust and woodchips from our LakeCity woodworking venture into efficient fire starters. By combining sawdust with paraffin wax, using basic kitchen tools, our team offers a convenient, sustainable way to get fires burning quickly. Bright Fire Starters burn for 25 minutes and can be used to light fireplaces, campfires, BBQ's and more!

You can support Bright Fire Starters by purchasing them at our LakeCity Woodworkers retail facility (386 Windmill Road, Dartmouth) or by visiting our website at www.lakecityworks.ca/firestarters.

Bright
A NATURAL
FIRE STARTER

Wood, Wax & Wisdom.
Bright burns bright for 25 min.
to light campfires, fireplaces,
fire pits, BBQ's, wood stoves
